

MULTINATIONAL TIME USE STUDY

USER'S GUIDE AND DOCUMENTATION

Version 4

January 2010

Kimberly Fisher, Jonathan Gershuny and Anne H. Gauthier,

With contributions from

Evrin Altintas, Alyssa Borkosky, Anita Bortnik, Michael Corey, Donna Dosman, Cara Fedick, Tyler Frederick, Thomas Grund, Sally Jones, Jiweon Jun, Aaron Lai, Qianhan Lin, Tingting Lu, Fiona Lui, Leslie MacRae, Berenice Monna, José Ignacio Giménez Nadal, Monica Pauls, Cori Pawlak, Andrew Shipley, Cecilia Tinonin, Nuno Torres, Charlemagne Victorino, and Oiching Yeung

Important:

This User Guide and Documentation pertains to Release 4 of the World5.5 dataset and replaces Release 3 (March 2009), Release 2 (May 2005) and Release 1 (March 2003). Errors have been corrected and new variables have been added. This documentation additionally covers the first release of the World 5.8 and World 6.0 versions.

Introduction

Chapter 1: Overview of the MTUS datasets

1.1: Introduction

1.2: Format and structure of the datasets

1.3: Surveys included

1.4: Technical information on the surveys

1.5: File naming conventions

1.6: Missing value conventions

1.7: Data preparation

1.8: Identifying quality diaries

Chapter 2: Variables from older versions no longer in use

Chapter 3: Codes of activities

3.1: MTUS 41-activity typology

3.2: MTUS 69-activity typology

3.3: Context and episode variables

3.4: Cross-survey comparability

Chapter 4: Demographic and socio-economic variables

4.1: Diary, survey and case information

4.2: Household-level variables

4.3: Person-level demographic variables

4.4: Employment and education variables

4.5: Health variables

Chapter 5: Weights in MTUS

Chapter 6: The analysis of time-use data

6.1: The data which time diaries collect

6.2: Basic analysis
